

The current near-term schedule, and how it relates to you/your organization, is as follows:

- 1) Late April (likely week of April 20) - Draft RI/FS Work Plan will be made available to you for review and comment.
- 2) Late May/early June – A meeting will be held to provide you with an opportunity discuss and ask questions related to the draft Work Plan. The exact date and location of this meeting has not yet been determined, though it will likely be held at a location in Bremerton.
- 3) Mid-June – Written comments on the draft Work Plan submitted to EPA.

Dates will be firmed up once an availability date for the draft Work Plan has been established.

Our current plan is to make the Work Plan available electronically because it will be a rather large document. However, a paper copy can be made available if you need one to conduct your review. Please let me know if you would prefer a hard copy of the Work Plan by April 15 so that we can get it to you.
